Japan Business Aviation Association, JBAA

JBAA assumes the role of popularization of business aviation and the improvement of accesses for business aircrafts from foreign states to Japan.

Airports in Japan are not only gateways to the country, but also very convenient access points to China and Southeast Asia, and the environment in Japan is getting friendly for foreign business aviation communities. Services our member companies provide include:

- *Business jet charter service from/to Japan*
- *Business jet charter service in Japan*
- *Helicopter service in Tokyo metropolitan area and through out Japan*
- *Maintenance service for business jet at several airports in Japan*
- *Ground handling service for business jet at many airports in Japan*

Some of service providers in Japan are shown bellow.

Website: <http://www.jbaa.org>

Contact us: webmaster@jbaa.org

① Aero Asahi Corporation

Aero Asahi is the most experienced business jet operator in Japan and dependable FBO at Nagoya Airport (RJNA). In 2014, it has renewed the fleet to Cessna Citation Sovereign-C680 and successfully implemented the IS-BAO. With new Sovereign, Aero Asahi is now ready for higher level of charter operations throughout Japan and across East Asia.

② Nakanihon Air Service

Founded in 1953, Nakanihon Air Service is a leader in the Japanese aviation industry. We began providing services at the international Nagoya Airport (RJNN), and continued uninterrupted through the conversion from RJNN to the newly designated Aichi Prefectural Nagoya Airport (RJNA) in February 2005. Our commitment to a tradition of First-rate service continues at Aichi Prefectural Nagoya Airport to this day.

With broad operational expertise in helicopters and fixed wing aircrafts, both domestic and international, we provide "feel at home" assistances for all corporate and private jets traveling to our region. We are your Premium Class concierge service provider from "touchdown" to "takeoff".
